We are happy to celebrate more than 5,000,000 computer science publications in the dblp computer science bibliography!

The database has doubled in size during the course of just six years. In 2019, about 450,000 new publications have been added to dblp.

In dblp, you can find publications from...
- 5,800 conference and workshop series
- 1,600 journals
- 90,000 table of contents

Over those authors, about 120,000 researchers have been manually identified and got their bibliographies checked by the dblp team.

Our editorial team is continuously checking the bibliographies and correcting misspelled publications.

In 2019, 55,000+ error cases have been fixed.

Each month, the dblp website is visited by 650,000+ users from all around the world.

On average, every 1.5 seconds another researcher starts working with dblp, visiting about 19 pages/session.

During peak times, the dblp website and search API receive 100+ requests per second.
