5 million publications | 1

We are happy to celebrate that our database has

doubled in size during the course of just six years.

In 2019, about 450,000+ new publications have
been added to dblp.

In dblp, you can find publications from ...

- 5,800+ conference and workshop series
- 1,600+ journals
- 90,000+ tables of contents

These papers are credited to 2,400,000+
authors.

Of those authors, about 120,000+ researchers
have been manually identified and got their
bibliographies checked by the dblp team.

These bibliographies lack about 28% of all publications in this.

dblp bibliographies are linked to ...

- 59,000+ academic homepages
- 65,000+ ORCID IDs
- 34,000+ Google Scholar profiles
- 24,000+ Wikidata entries
- 5,600+ Wikipedia articles
- and 42,000+ further IDs

Data quality and constant quality control is of the highest
importance to the dblp approach. Since 2002,
9,600,000+ edits

have been made to existing records in order to correct, update, categorize, and expand the database.

Our editorial team is continuously checking the bibliographies
and correcting misspelled publications.

In 2019, 55,000+ error cases have been fixed.

Each month, the dblp website is visited by
650,000+ users from all around the world.

On average, every 3.5 seconds
another researcher starts working with
dblp, visiting about
10 pages/session.

During peak times, the dblp website and search API
receives 100+ requests per second.
