The database has doubled in size during the course of seven years.

In 2023 alone, 520,000+ new publications have been added to DBLP.

In DBLP, you now find publications from ...

- 5,800+ conference and workshop series
- 1,800+ journals
- 100,000+ table of contents

If those authors, about 160,000+ researchers have been manually identified and put through preliminary checking by the DBLP team.

These submitted bibliographies are about 31% of all publications in DBLP.

DBLP bibliographies are linked to ...

- 51,000+ academic homepages
- 102,000+ ORCIDs
- 20,000+ Google Scholar profiles
- 51,000+ Wikidata items
- 6,600+ Wikipedia articles
- 44,000+ further IDs

Some quality control process is carried out to improve the database that is obtained. 13,300,000+ edits have been made in working sessions in the past year in order to correct, update, complete, and expand the metadata.

Our editorial team is continuously checking the bibliographies and correcting misspelled publications.

In 2023, 72,000+ error cases have been handled.

Each month, the DBLP website is visited by 750,000+ users from all around the world.

During peak times, the DBLP website and its CouchDB receives 120+ requests per second.

Since 2000, DBLP is working front and back on "Facts" to COVID-19 (or coronavirus).
