6 million publications | 1

We are happy to celebrate more than 6,000,000 computer science publications in the dblp computer science bibliography.

The database has doubled in size during the course of seven years.

In 2023 alone, 528,000+ new publications have been added to dblp.

In dblp, you now find publications from...

- 5,800+ conference and workshop series
- 1,800+ journals
- 100,000+ table of contents

These papers are credited to 2,900,000+ authors.

(dblp) bibliographies are linked to...

- 51,000+ academic homepages
- 102,000+ ORCID IDs
- 20,000+ Google Scholar profiles
- 51,000+ Wikidata items
- 6,600+ Wikipedia articles
- 64,000+ further IDs

Some quality control processes are carried out by the following organizations:

- DBLP
- 13,300,000+ edits have been made in working context in the last year. Many more improvements are needed to improve the database.

Our editorial team is continuously checking the bibliographies and correcting misindexed publications.

In 2023, 72,000+ error cases have been handled.

Each month, the dblp website is visited by 750,000+ users from all around the world.

During peak times, the dblp website and search API receives 100+ requests per second.

Since 700+ days of working from home

*During 700+ days of working from home, the dblp team has conducted 120+ meetings per week.
