The database has doubled in size during the course of seven years.

In 2022 alone, 520,000+ new publications have been added to dblp.

In dblp, you now find publications from...
- 5,800+ conference and workshop series
- 1,800+ journals
- 100,000+ table of contents

Of those authors, about 150,000+ researchers have been manually identified and are now extraneously checked by the dblp team.

These uncovered bibliographies make up about 30% of all publications in dblp.

dbLP bibliographies are linked to...
- 51,000+ academic homepages
- 102,000+ ORCIDs
- 20,000+ Google Scholar profiles
- 51,000+ Wikidata items
- 6,600+ Wikipedia articles
- and 64,000+ further IDs

Some quality and completeness controls of the highest importance for the dbLP development. Since 2005, 13,200,000+ edits have been made to enrich metadata in order to correct, update, complete, and extend the metadata.

Our editorial team is continuously checking the bibliographies and correcting misspelled publications.

In 2022, 72,000+ error cases have been handled.

Each month, the dbLP website is visited by 750,000+ users from all around the world.

Since 700+ days, the dbLP team is working from home. "Thanks! To COVID-19."
