**dblp**
computer science bibliography

We are happy to celebrate more than

6,000,000

computer science publications
in the dblp computer science bibliography!

The database has **doubled in size** *during the course of* **seven years**.

In **2021** alone, **520,000+ new publications** have been added to dblp.

2022
2015
2010
2006

In dblp, you now find publications from ...

- **5,800+** conference and workshop series
- **1,800+** journals
- **100,000+** table of contents

These papers are credited to

2,900,000+
authors

Of those authors, about **165,000+ researchers** *have been* **manually** *identified and got their bibliography* **checked** *by the dblp team.*

These curated bibliographies list **about 31% of all publications** *in dblp.*

31%

trivial bibliographies with just one publication
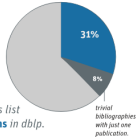

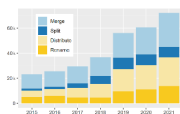

dblp bibliographies are linked to ...

iD

- **51,000+** academic homepages
- **102,000+** ORCIDs
- **20,000+** Google Scholar profiles
- **51,000+** Wikidata items
- **6,600+** Wikipedia articles
- and 64,000+ further IDs

Data quality and constant quality control is of the highest importance to the dblp approach. Since 1995,

13,200,000+ edits

have been made to existing records in the dataset in order to **correct**, **update**, **complete**, *and* **expand** *the metadata.*

Our editorial team is continuously **checking the bibliographies** *and correcting misassigned publications.*

2015 2016 2017 2018 2019 2020 2021

In 2021, **72,000+ error cases** *have been handled.*

Each month, the dblp website is visited by **750,000+ users** *from all around the world.*

page hits Dagstuhl Trier
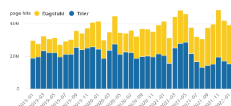

During peak times, the dblp website and search API receives **150+ requests per second**.

Since
700+ days
the dblp team is **working from home** *"thanks" to CoViD-19*

(with acutely not that much noticable impact on the performance of dblp at all)
